About This Game

The resistance is headed by Admiral John Wayne. They have detected several strategic movements in a planet placed in the outer system. The rebel spies report that the YUK Empire has built a destructive weapon that could unbalance the current war.

The codename of the weapon is: **PROJECT XINATRA**

In order to locate and destroy XINATRA, the Admiral Wayne has hired the best bounty hunter in the Universe. Nobody knows his name, but he is known for his courage and skill in the battle.

It is an action game inspired in the old classic arcade games. You will remember those classics games while you are killing hordes of enemies.

Project Xinatra will take you along five different locations in search of the ultimate weapon. Collect weapons and items and destroy hundreds of enemies. They all want to see you dead, but you are the best warrior around the galaxy.

FEATURES:

- Ranking online: Mark your name among the best players of Steam
- 5 amazing stages: The adventure begins on the surface of the planet, with radioactive rain and a lot of enemies. Descend around the facilities of the enemy army. Use your combat motorbike in order to reach the secret base. The enemy army will not stop until you are dead, but they don't know your skills in combat.
 - Amazing final bosses: They will be your worst nightmare.
 - Powerful weapons combat
 - Classic old school gameplay
 - Difficulty adjusted only for the hardcore players
 - Incredible soundtracks

An all-round improvement over the first game, and what an improvement it is! It looks gorgeous, the UI is much improved and the mechanics refined. You have to juggle an increasingly complex flow of goods along your rail network, while building your rail network and expanding your stable.. It's less pushy than the first game, but no less challenging for it. I highly recommend it.. Even if this game gets stuck in 'Pantheon: Rise of the Fallen' level development hell; the beta is already a better iteration of diablo 2 V 3. This is essentially the diablo 2 remaster I've been waiting for; and they're not even designing it to be played on phones.. Excellent little game. Simple but powerful and WELL worth the price.. WOM is a great quest, which has an advantages and disadvantages.

Adv:

- 1)Intresting storyline which starts with a simple crime at first look, but goes to unexpected way.
- 2)The game world has it's own "lore" which let you dive more in main storyline.
- 3)Features of cyberpunk.

Dis:

Just 1 for me: Sometimes I have to read a walkthrough guide to solve some puzzles (about 3 times).

I can recommend WOM to:

- 1) All who like quests, you must play it.
- 2)All who like intresting stories like me, and you don't care about the genre of games.

Great thanks to developers!. Disappointing! Takes forever to load and close. Can't get the non-vr version to work. Multiple tries and I can't get the first cab switches to hi-lite much less work.

fake game i buy it and start it already game crash report lose money damn not good game. This video is a beautiful mix of different animation styles with a simple, but powerful premise. While there is some comedy, this is definitely not a lighthearted tale for kids. I rented this video on a whim and ended up a crying mess.

I watched this with English subtitles and there weren't any issues.. It lags ;-;. Sorry, not even a little bit maybe, just a great big no. I wouldn't even if it's on sale. If you're in for the story - don't bother, if you're in for the art work - don't bother and if you're in for the adult scenes - completely don't bother! I mean that patched and all, it's not worth your time, there's much better stuff on steam, even lots of the bad stuff is way better. Not at any price, sorry.

Yes it's pretty sexual in flavour, yes you will be very disappointed.. Don't buy this cluster♥♥♥♥ it is not worth it. I even bought it for 2 euros and still got disappointed! Do not waste your money!
